

Abstract of the Disclosure

ADHESIVE TAPE FOR POLISHING PAD AND POLISHING TAPE

- 5      An adhesive tape of the double-side type for attaching a polishing pad to a polisher and for backing a polishing pad and a polishing tape has a base sheet with both its front and back surfaces coated with an adhesive agent and a peeling sheet of a resin material is adhesively attached onto at least one of the surfaces of the base sheet. The peeling sheet may be made of polyethylene terephthalate or polypropylene and is treated such that it can be peeled easily.
